DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species:

Species I – claims 2-6, 9, 15-19, 22, 28-32, 35 (classified in class 715, subclass 711).

Species II – claims 7, 10-11, 20, 23-24, 33, 36-37 (classified in class 715, subclass 504).

Species III – claims 13, 26, 39 (classified in class 707, subclass 3).

2. The species are independent or distinct because of the following:

Species I substantially deals with operator interface/tool tips. Species II substantially deals with spreadsheet/cell format control. Species III substantially deals with searching (querying).

3. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Currently, **claims 1, 8, 12, 14, 21, 25, 27, 34, 38 are generic.**

4. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Art Unit: 2176

5. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
